On Thursday November 25, 2004 at the Childrens Pool in the late morning I witnessed a seal advocate by the name of Marjane Aalam start screaming at a man with a woman and baby, presumably his family, and chase them off the beach. She then pulled out a video camera and proceeded to film and follow them as they proceeded up the stairs to the sidewalk. She then followed them with her video camera out as they proceeded north along Coast Boulevard past 939 Coast Boulevard and then the family she was following headed east up the hill from Coast Boulevard and she continued to follow them as they proceeded from the coastline area.

This is obviously a case of stalking and domestic terrorism.
