Yes I have sent those letters and faxed them too. I have gotten veiled threats via email when quoted in paper as supporting seals be moved. That's why I wanted to be anonymous. Plus I don't trust the seal activists and thought maybe this was a dummy site.

I support getting kids back in the water at the Children's pool. The seals can swim elsewhere. The activists are bullies.

I wish to be anonymous. I have reported to the police an incident of harassment by seal people. also a letter to the mayor, police chief, and council members, SD union and the La Jolla Light about my encounter with seal people. Also with Capt Zimmerman about harassment. I believe that the seal lovers are the problem, why don't they pick up the poop?

Well, ok, but anonymous people are not taken so seriously. I will possibly use your text, but have to omit your email address, of course.
