Section 109. Federal Cooperation With States 16 U.S.C. 1379

Sec. 109. (a) [STATE ENFORCEMENT OF STATE LAWS OR REGULATIONS PROHIBITED WITHOUT TRANSFER TO STATE OF MANAGEMENT AUTHORITY BY SECRETARY.] — No State may enforce, or attempt to enforce, any State law or regulation relating to the taking of any species (which term for purposes of this section includes any population stock) of marine mammal within the State unless the Secretary has transferred authority for the conservation and management of that species (hereinafter referred to in this section as "management authority") to the State under subsection (b)(1).

(b) [FINDINGS PREREQUISITE TO TRANSFER OF AUTHORITY; STATE PROGRAM; IMPLEMENTATION.] —

(1) Subject to paragraph (2) and subsection (f), the Secretary shall transfer management authority for a species of marine mammal to a State if the Secretary finds, after notice and opportunity for public comment, that the State has developed and will implement a program for the conservation and management of the species that—

(A) is consistent with the purposes, policies, and goals of this Act and with international treaty obligations;

(B) requires that all taking of the species be humane;

(C) does not permit the taking of the species unless and until—

(i) the State has determined, under a process consistent with the standards set forth in subsection (c)—

(I) that the species is at its optimum sustainable population (hereinafter in this section referred to as "OSP"), and

(II) the maximum number of animals of that species that may be taken without reducing the species below its OSP, and

(ii) the determination required under clause (i) is final and implemented under State law, and, if a cooperative allocation agreement for the species is required under subsection (d)(1), such an agreement is implemented;

(D) does not permit the taking of a number of animals of the species that exceeds the maximum number determined pursuant to subparagraph (C)(i)(II), and, in the case of taking for subsistence uses (as defined in subsection (f)(2)), does not permit the taking of a number of animals that would be inconsistent with the maintenance of the species at its OSP;

(E) does not permit the taking of the species for scientific research, public display, or enhancing the survival or recovery of a species or stock, except for taking for such purposes that is undertaken by, or on behalf of, the State;

(F) provides procedures for acquiring data, and evaluating such data and other new evidence, relating to the OSP of the species, and the maximum take that would maintain the species at that level, and, if required on the basis of such evaluation, for amending determinations under subparagraph (C)(i);

(G) provides procedures for the resolution of differences between the State and the Secretary that might arise during the development of a cooperative allocation agreement under subsection (d)(1); and

(H) provides for the submission of an annual report to the Secretary regarding the administration of the program during the reporting period.

(2) During the period between the transfer of management authority for a species to a State under paragraph (1) and the time at which the implementation requirements under paragraph (1)(C)(ii) are complied with—

(A) the State program shall not apply with respect to the taking of the species within the State for any purpose, or under any condition, provided for under section 101; and

(B) the Secretary shall continue to regulate, under this title, all takings of the species within the State.

(3) After the determination required under paragraph (1)(C)(i) regarding a species is final and implemented under State law and after a cooperative allocation agreement described in subsection (d)(1), if required, is implemented for such species—

(A) such determination shall be treated, for purposes of applying this title beyond the territory of the State, as a determination made in accordance with section 103 and as an applicable waiver under section 101(a)(3);

(B) the Secretary shall regulate, without regard to this section other than the allocations specified under such an agreement, the taking of the species—

(i) incidentally in the course of commercial fishing operations (whether provided for under section 101(a)(2) or (4)), or in the course of other specified activities provided for under section 101(a)(5), in the zone described in section 3(14)(B), and

(ii) for scientific research, public display, or enhancing the survival or recovery of a species or stock (other than by, or on behalf of, the State), except that any taking authorized under a permit issued pursuant to section 101(a)(1) after the date of the enactment of the 1981 amendment to this sub-section [October 9, 1981] allowing the removal of live animals from habitat within the State shall not be effective if the State agency disapproves, on or before the date of issuance of the permit, such taking as being inconsistent with the State program; and

(C) section 101(b) shall not apply.

(c) [STANDARDS WITH WHICH STATE PROCESS MUST COMPLY.] — The State process required under subsection (b)(1)(C) must comply with the following standards:

(1) The State agency with management authority for the species (hereinafter in this section referred to as the "State agency") must make an initial determination regarding the factors described in clause (i) of that subsection. The State agency must identify, and make available to the public under reasonable circumstances, the documentation supporting such initial determination. Unless request for a hearing under paragraph (2) regarding the initial determination is timely made, the initial determination shall be treated as final under State law.

(2) The State agency shall provide opportunity, at the request of any interested party, for a hearing with respect to the initial determination made by it under paragraph (1) at which interested parties may—

(A) present oral and written evidence in support of or against such determination; and

(B) cross-examine persons presenting evidence at the hearing. The State agency must give public notice of the hearing and make available to the public within a reasonable time before commencing the hearing a list of the witnesses for the State and a general description of the documentation and other evidence that will be relied upon by such witnesses.

(3) The State agency, solely on the basis of the record developed at a hearing held pursuant to paragraph (2), must make a decision regarding its initial determination under paragraph (1) and shall include with the record a statement of the findings and conclusions, and the reason or basis therefor, on all material issues.

(4) Opportunity for judicial review of the decision made by the State agency on the record under paragraph (3), under scope of review equivalent to that provided for in section 706(2) (A) through (E) of Title 5, United States Code, must be available under State law. The Secretary may not initiate judicial review of any such decision.
