### Children's Pool

The Children's Pool is a small beach partially protected by a seawall. The original intention was to create a fully protected swimming area, but in recent years sand has filled in much of the area inside the wall. This is a very picturesque beach with a panoramic view. During much of the year, seals and sea lions are present on or near the beach and a reserve for these marine mammals, called Seal Rock, is just offshore. Several small beaches are nearby including Wipeout Beach to the south and Shell Beach to the north. This is a popular beach for scuba divers because of the reefs just offshore. These same reefs can create very strong currents and other hazards, particularly in high surf conditions.
